Call For Papers
ACM CoNEXT'2009
Student Workshop

CNR - Rome, Italy
www.co-next.net

Sponsored by
ACM SIGCOMM

The 5th ACM International Conference on emerging Networking EXperiments and Technologies (ACM CoNEXT), to be held in Rome, Italy, will continue as a forum for fostering scientific and technological exchanges between various international research communities in networking. Following the success of previous years, the main conference will be preceded with a one day Student Workshop. The ACM CoNEXT 2009 Student Workshop aims at providing the opportunity for graduate students in the areas of computer networks and data communication to divulge their ongoing research efforts, even if at an early stage. The venue also represents a unique opportunity for students to network with other young researchers as well as more experienced ones, receiving constructive feedback, guidance, tips, and learning about cutting-edge research problems being tackled by the student community.

We invite submissions of abstracts (max. 2 pages long) from graduate students describing ongoing research work for potential presentation at the ACM CoNEXT 2009 Student Workshop. Research that addresses non-standard topics and controversial problems and approaches is of particular interest. Submission of work in an early stage is particularly encouraged.

Topics of interest include (but are not limited to):

- Internet measurement and modeling
- Wireless networks
- Mobile and cellular networks
- Ad hoc and sensor networks
- Economic aspects of the Internet
- Network security
- Data center networks
- Peer-to-peer and overlay networks
- Routing and traffic engineering
- Delay and disruption tolerant networks
- New networking protocols
- Future Internet architectures

Selected abstracts will be published in the ACM CoNEXT 2009 proceedings and authors will be required to present their work through a poster session.

Please follow the ACM CoNEXT 2009 Formatting Guidelines (<http://conferences.sigcomm.org/co-next/2009/submission.php>) EXCEPT for the following two differences:

- Paper is limited to TWO (2) pages only. This includes ALL figures, tables, appendices, etc.
- Please provide only author names and affiliations; it is not necessary to add PAPER ID and number of pages.

Posters for accepted abstracts should have the following size: DIN A0 (841 x 1189 mm; 33.1 x 46.8 inches). ACM CoNEXT 2009 will provide boards and easels for presenting posters. Authors are responsible for printing and mounting their posters, and transporting their posters to the conference.

Submission Deadline:	14th September	2009
Notification:	5th October	2009
Camera Ready Version:	12th October	2009
ACM CoNEXT 2009 Student Workshop:	1st December	2009

Conference Chairs:

Matthew Caesar, University of Illinois at Urbana-Champaign, USA (caesar@cs.uiuc.edu)
Polly Huang, National Taiwan University, Taiwan (p Huang@cc.ee.ntu.edu.tw)
Luigi Iannone, Deutsche Telekom Laboratories AG – TUB, Germany (luigi@net.t-labs.tu-berlin.de)
